CARELESS AUTO DRIVERS CAUSE MANY ACCIDENTS

Within twenty months, in California, on country roads, there have been 26 killed and 32 persons injured in accidents at railroad crossings that could have been avoided had the drivers used due caution. This statement is made by railroad companies after gathering statistics from special observers and from citizens in the communities who were serving on boards of inquiry.

The figures exclude city streets, where rush of traffic and noise may have been contributing factors. Neither do they include cases where persons were "joy-riding" or the drivers intoxicated.

The railroad companies are calling upon automobile men and others to help in accident prevention. On this subject, the Chicago Tribune, in an editorial, recently said:

"When pedestrians are about to cross a city street, they ought to halt, look both ways and when sure the road is clear, go ahead. When they fail to do this and get run over, automobilists say, 'Why did they not look before they left the sidewalk? We blew our horns. Why did they not take notice?'"

"Cannot railroad officials say with some justice when trains hit automobiles, 'Why did not they look right and left before making the crossings? Our whistles blew; why did they not listen?'"

When a street car comes by a grade crossing the conductor looks to see that all is clear. Why not automobilists?

"A train does not come on one with the stealthy approach of an auto."

"Automobile clubs might well advise their members—to do at railroad crossings what they say pedestrians should do at all street crossings—avoid contributory negligence."

Watchmen stationed by the Southern Pacific Company at crossings in San Francisco found that seventy percent, by actual count, of all auto drivers at crossings with railroads fail to look to right or left. Similarly in Stockton, out of 4,080 pedestrians only 60 look up and down the tracks before crossing.

While actual statistics show that only one and one-half per cent of automobile accidents occur at street crossings, nevertheless, this one and one-half per cent is so large that automobile associations are co-operating with the railroads to minimize the number and bring about a greater exercise of care on the part of pedestrians and drivers of motor vehicles. In making an effort to ascertain wherein the responsibility for crossing accidents might rest, some observations were recently made by one of the railroads with offices in San Francisco, and the statement of the results, involving 10,522 motor vehicles, 4246 teams and 4524 pedestrians, shows that 69 per cent of the drivers of motor vehicles took no precaution whatever, to prevent being struck at crossings, 21 per cent passing at a high rate of speed.

It is pointed out by railroad officials that the millions necessary for added grade protection would levy an extra toll on the rates paid by shippers and passengers. There would be less necessity for this if more precautions were taken by pedestrians and drivers at the crossings.

The observations were made in San Francisco, Los Angeles, Stockton, and Oakland. The total of the pedestrians and drivers of teams and motor driven vehicles who crossed during the period of observation was 25,296. Of the number 35 stopped and looked in both directions before crossing; 8950 kept moving and looked in both directions; 1694 kept moving and looked one way only and 14,617 kept moving and looked straight ahead.

ENRAGED LABORER SHOTS AND KILLS THE WRONG MAN

Andrew Rocco, a discharged employee of the Barber Asphalt Company at Burlingame, is a fugitive from justice, charged with the murder of Louis Areta, a fellow employee. Rocco had been discharged by Frank West, the foreman of the company, a few days ago, and he swore he would be revenged. Monday evening he attempted to carry out his threat and stole upon West who was accompanied by Areta and another workman, and in his eagerness to get revenge, without waiting to pick his man, fired three shots at Areta, killing him instantly.

West attempted to arrest Rocco, but the murderer escaped in the groves of Hillsborough. Sheriff Mansfield was notified and posses were hastily formed and an effort made to catch the fugitive, but up to last night he was still at large.

As some cases of genuine rabies have been reported in the county it is advisable that people should look out for strange dogs. The disease is more prevalent during the winter months and vigilance is the price of safety.

SUPERVISORS ORDER MORE ROAD WORK

The Board of Supervisors met in adjourned session Tuesday, November 25th, there being present William H. Brown presiding, Jas. T. Casey, John MacBain and Joseph M. Francis.

Fred A. Cunningham addressed the board asking that further consideration of the change of the road way at South San Francisco be postponed until December 15th as the city council of South San Francisco had not had time to present the matter to the Railroad Commission. The continuance was granted.

On motion of Francis, seconded by MacBain, it was ordered that six claims aggregating \$147.50, ordered paid out of the Highway fund at the last meeting, be transferred to the General fund.

Surveyor Neuman presented the plans and specifications for grading the road from Colma to Edgewood, a distance of 6 miles, building the necessary culverts and fencing, the estimate cost of which is \$37,002.60.

The plans were accepted on motion of Casey, seconded by MacBain, and the clerk directed to publish a call for bids for the work, to be opened December 29th.

The Surveyor also presented plans and specifications for grading and paving Middlefield road from Redwood City to the San Francisco creek, a distance of 18,300 feet. The plans provided for a paving of asphaltic concrete or a concrete base of four inches with a wearing surface of asphaltum, the estimated cost of the former being \$48,297 and the latter \$46,734.

On motion of MacBain, seconded by Casey, the depth of the concrete base was increased from four to five inches, which change the Surveyor estimated would cost \$6900. MacBain stated that he would pay the additional cost out of his road fund.

The plans as amended were accepted on motion of MacBain, seconded by Francis and the clerk directed to publish a notice calling for bids on both plans, to be opened December 29th.

Surveyor Neuman stated that the acquisition of rights of way for the road from Colma to Edgewood had not been completed as some of the property owners through whose land the road is to run had not consented to the use of their property. In order to have the matter properly adjusted he presented a petition signed by W. J. Savage and others asking that viewers be appointed to lay out the road in accordance with the surveys made.

The petition was accepted on motion of Casey, seconded by MacBain, and on suggestion of Casey, Henry Gellfus and Henry Fuchs were appointed as viewers to act with the surveyor in laying out the road.

A number of disputed claims scheduled to be disposed of at this meeting were again laid over on account of the absence of Blackburn.

Adjourned to Monday, December 1st.

EL CAMINO REAL WILL BE PAVED FROM CURB TO CURB.

The progressive residents on El Camino Real are determined that the work of paving their street, now being done by the county under the recent bond issue, shall be extended from curb to curb.

Monday night a committee including more than three-fourths of the interested property owners appeared before the city council at an informal meeting and asked that steps be taken to make the work complete, they-to-pay the extra cost. The members of the council expressed themselves as strongly in favor of the undertaking and promised to give their assistance in carrying it out.

On Tuesday Fred Chilcott, who is acting as spokesman for the property owners, appeared before the Board of Supervisors and made known the desire of the residents on the street. He was assured the support of the board and advised to make whatever arrangements are necessary with the contractors.

The contract awarded by the supervisors provides for a strip of road 24 feet wide, leaving 10 feet unpaved on each side. The cost to have the street paved for its full width will be \$1.35 per lineal foot to the property owners on each side.

Wellesley-Park Wedding.

A pretty wedding ceremony took place at the home of Mr. and Mrs. Henry Martins in Wellesley Park Saturday at 1 o'clock at which Frank J. Nash and Miss Ella Hazel Martens were made husband and wife. The ceremony was performed by Rev. Father Sullivan. The bride is a charming young lady and a graduate of Sequoia high school, class of 1913. Mr. Nash who is a brother of County Clerk Joe Nash, and is as popular as his brother, holds the responsible position of superintendent of construction in the office of the State Harbor Commission. The couple are absent on their wedding trip and on their return will reside at San Mateo, where Mr. Nash has already prepared a home for his bride.

Father Ricard's Rainstorm.

Father Ricard's rainstorm, due here on the 25th, was both ahead and behind schedule time. It rained late Monday evening, while Tuesday was a clear day. In this vicinity, yesterday was cloudy and at 9 o'clock last night the rain began to fall again. Although Father Ricard failed to give the exact time of the arrival of the storm here he came nearer to it than did any of the paid prognosticators to the government, being only a few hours out of the way. In some parts of the State there was rainfall on Tuesday.

Henry Andrews, an expert jeweler

and watch repairer, will shortly open a store in the Sequoia building.

THE FATHER OF CALIFORNIA.

The setting apart of last Monday as

a legal holiday in order that the people

of California should pay tribute to the

two hundredth anniversary of the birth

of Father Junipero Serra was but a just

recognition of the work of this grand

man who may be justly regarded as the

real founder of the present great com-

monwealth. Whether regarded from a

material or ethical standpoint, Califor-

nia owes to him more than to any other

man its wonderful development. Not

alone by the adherents of his own faith,

but by the believers in the true spirit of

morality and humanity of whatever

faith, should the memory of this man be

held in reverence. He came to this

section when it was an unknown wilder-

ness actuated, not by the greed and

lust for gain of the Spanish soldiers who

had preceded him, but to do good for

humanity's sake, to fulfill his great

mission of carrying into the wilderness

the faith which he believed to be essen-

tial for the salvation of its benighted

people. Probably no more fitting tribute

to the splendid life and work of

Father Serra could be paid than the

following from the pen of Charles Phil-

lips, editor of the Monitor:

"Just as George Washington is the

father of our country, Saucy Jack Bar-

ry the father of our navy, or the Pil-

grims the fathers of New England, so

is Junipero Serra, the man who brought

the light of Christianity to our shores,

the father of California. It is good for

us to all join, as we do today, in cele-

brating his memory. It is good for us

to have the lesson of such a life as that

of Serra's brought home to us.

"The character of Junipero Serra of-

fers a striking study; it combines so

many divergent features. It is at

once angelic and manfully forceful, se-

raphie and plainly sensible. He was a

learned and eloquent man (not, as too

many writers have fancifully imagined,

a mere holy zealot). In his youth he

had a great career before him. In the

face of such ringing eloquence in the

pulpit and such brilliance on the rostrum

as were his, one hardly dared put any

limit to the honors he might win. But

he gave them all up because his heart

burned with love of souls—benighted

souls in a far pagan land, for whose

eternal salvation he literally yearned.

And so he came to California—and here

his character reveals still other inter-

esting facts. Not only was he preacher

and teacher and holy Franciscan priest,

but he was a pathfinder, a pioneer, a

builder and a statesman as well. The

mighty genius he exhibited in the founda-

tion and administration of his great

mission system is something before

which the most thoughtful must bow.

He studied the aborigine, and understood

him. He had a great head as well as a

great heart. And speaking of his heart—

how beautifully it is revealed in his

letters: in such little passages, for

instance, as that in which he tells of

finding a Castilian rose in the California

waste. He was another St. Francis:

he loved the wilding children of the trail;

knew bird and squirrel and rabbit and

all the furtive folk of the wilderness, and

learned the ways of them, no doubt, in

which to approach and deal with the

equally furtive Indian.

Serra gave his life to California. Lame

from the time of his arrival, he

limped his glories way up and down El

instruction in sex hygiene seeks to

cure is to any great extent due to

ignorance. Far more could be ac-

complished by installing the prin-

ciples of morality, not from the

merely utilitarian viewpoint, but on

the old-fashioned theory that right

should be done for right's sake.

That instruction in general hy-

giene should be given an important

place in the curriculum of the

school no one will question. Chil-

dren of all ages should be taught

the value of cleanliness, which John

Wesley declared was next to god-

liness. The care of the teeth, fre-

quency and manner of bathing and

the necessity of open-air exercise

for health instead of mere strength,

are among the subjects which

should be impressed upon the pupils

Working on High-School Opera

In most of the musical pro-

ductions put on by the high school,

the girls have taken the principal

parts, especially in the chorus work,

but in "Cupid's Disguise," the op-

effort will be made to work up

a good boys' chorus and Mr.

Carrington is confident that the

work of the boys will please. Nearly

every one likes male chorus work.

Tickets for the opera will be

on sale this week by members of

the school and it is desired that

the public respond as satisfactorily

as on previous occasions. The usual

plan will be followed of reserv-

ing the seats at Ryan's drug store

on the Monday preceding the pro-

duction.

NEWS GATHERED FROM THE COUNTY

Interesting Notes Picked Up By Hustling Reporters in the Country Districts.

SAN BRUNO NOTES.

Sunday Morning at 9 o'clock, A. Engle of Huntington Park, as he was driving across the state highway from Tucker avenue was struck by an automobile which was speeding up to its highest capacity. The buggy was damaged beyond repair, but strange as it may appear neither Engle nor the horse was injured, although Engle was hurled back into the park. There have been several narrow escapes at this point since the highway has been opened to travel. At this point there is a sign warning drivers of automobiles to slow down, but few pay any attention to the warning. The motor cop should watch this crossing as it is much used by the children on their way to school.

The man handy with a check book but shy of funds made his appearance in San Bruno during the week and purchased a lot from a local real estate agent for \$475 and gave in payment a check for \$500, receiving \$25 in cash and a deed for the lot. His present location is urgently sought but thus far no clue to his whereabouts has been received.

Undaunted by the storm of Wednesday night, a full house greeted the Woodmen's entertainment and dance at Green's Hall at its anniversary. A few of the numbers to appear on the program were unable to attend owing to the inclement weather, nevertheless a satisfactory program, full of pleasing features was given. The committee of arrangements, consisting of A. Gillespie, J. Sherman, D. J. Lynch, W. O. Ford and N. Drescher, left nothing undone to please the great gathering who attended the annual festivities of the Woodmen. The big turkey offered for a door prize was a cynosure of admiration as it was on exhibition previous to the event at the postoffice. It went to South San Francisco with A. Bissett. Fred Allen and C. Scholekopf also brought along their luck and brought home turkeys. Forty couples competed for the waltz prize, John Zari and partner carrying off the honors and reward. The Camp desires to thank the public for its liberal patronage and attendance and also those who took part in the program.

The stork visited the home of Tony Marcheck and wife of the fourth addition last Sunday, November 23rd, and left a little daughter. Mother and babe are doing nicely.

J. J. Maloney and son Joe and Frank Valentine left for King City, where they will be engaged in the construction of several large buildings. They expect to be absent from San Bruno about six months.

P. Drescher has been brightening up his home with a coat of paint.

Mr. Cochran and his family are occupying the Collins house in the fourth addition.

The German residents of San Bruno have announced a Christmas tree and dance at Green's Hall on Christmas night.

SOUTH SAN FRANCISCO.

Upon the recommendation of Dr. H. G. Plymire, president of the local board of health, the city council has created the office of sanitary inspector for the city. James F. DeVane, chemist and bacteriologist, a resident of San Mateo, has been temporarily appointed to the position at a salary of \$50 per month.

The city council has authorized an offer of \$10,000 to the South San Francisco Land Company for a tract of land bounded by Grand, Maple, Miller and Spruce avenues for a civic center, upon which it is the ultimate design to erect a series of public municipal buildings, which will include a high school and a library building.

Father Moran of San Francisco, who was recently assigned to the charge of the South San Francisco parish, has commenced the duties of his charge, holding his first services last Sunday. Father Moran will establish his residence in this city.

The city health authorities have been making a campaign against the sale of unsanitary meats by the local markets. In one case two market proprietors, upon a plea of guilty in the city recorder's court to charges of selling immature veal, were fined \$20 each. Other arrests have been made.

Dr. Harry G. Plymire, the well known physician and surgeon and county coroner, opened his new hospital in South San Francisco this week. It is to be known as the South San Francisco General Hospital. Dr. Plymire recently erected a new residence adjoining his old home in South City. The north end of the county has felt the necessity for a hospital for some time and Dr. Plymire decided to devote his old residence to the purpose.

Del Westcott, a young society man of San Mateo, demonstrated last Sunday evening that he is a pugilist and does not need to carry a gun as a protection against the hold-up man. As Westcott was walking through the grounds of the grammar school of that city during the dusk of evening, a burly fellow stepped from cover and commanded him to throw up his hands. In a flash Westcott landed a fist on the fellow's chin and the latter went down for the count. Westcott did not tarry for further parley with his assailant but struck out in search of an officer. When the officer reached the scene, however, the hold-up man has sufficiently recovered from the jolt to make his get-away.

GOOD NEWS FOR LONG-DISTANCE PHONE USERS

While, of course, nothing definite in the way of figures can be announced at this time, it may be taken as a foregone conclusion that every city in San Mateo County will be favorably affected by the recent decision ordering reductions on all long distance telephone calls within the State of California. Although the telephone company naturally refrains from making any announcements until its experts have made a complete review of the situation, officers of the company do not question but that the rates down the peninsula will be affected in the same proportion as other sections.

The order of the commission allows two minutes as the minimum for conversations instead of one as under the present rule. Under the new rate the charge for a two minute conversation is fixed at one-half cent per air line mile, with a 50 per cent increase for each additional minute or fraction thereof.

Figured on this basis, it is a safe estimate that the rate for an ordinary long distance call between this city and San Francisco will not exceed 15 cents and may be even less. Between this city and San Mateo the rate cannot exceed 5 cents. The rates under the new order will not go into effect until February 16th, 1914.

Based on approximate figures the new rates, as affecting peninsula points, will be as follows:

Redwood City—San Francisco.....	15
Redwood City—San Mateo.....	10
Redwood City—Pescadero.....	05
Redwood City—Halfmoon Bay.....	15
Redwood City—South San Fran.....	10
Redwood City—San Jose.....	10
Menlo Park—San Francisco.....	15
South San Fran—San Francisco.....	05
San Bruno—San Francisco.....	10
San Mateo—San Francisco.....	10
Belmont—San Francisco.....	15

Annual Poultry Show.

The second annual poultry show to be held in San Mateo, December 4th to 7th inclusive, will be a record breaker from the standpoint of quality as some of the finest poultry in the State has been entered for competition. What attracts the leading breeders of the West is the grand collection of prizes, which consist of cash awards, cups, and valuable trophies besides the regular silk ribbons denoting first, second, third, fourth and special prizes. The local merchants and business men have responded very generally to the call of the association in the endeavor to make this event a brilliant success and over 30 silver cups have been donated by different business men of the county. Among the most valuable are the \$50 challenge cup, presented by Attorney K. M. Green of San Mateo \$50 silver cup, donated by Redwood City Board of Trade and \$25 in gold, presented by the San Mateo county Board of Supervisors.

Wants New Station. J. L. Smith, the attorney, has petitioned the Southern Pacific Company, on behalf of the residents of Wellesley Park and Redwood Highlands and vicinity to stop its local trains at the stone archway erected by the Peninsula Electric Company at the foot of Wellesley avenue, Wellesley Park. This would be a great benefit to both those sections as well as Redwood City generally as it will materially shorten the distance to the trains. Besides, it will furnish better transportation facilities, thereby encouraging more people to locate in this locality. It is to be hoped the company will grant this concession. We believe it will be to their interest to do so.

Mrs. William Wahl desires to thank the many kind friends and neighbors who assisted her during the illness and at the death of late husband, William Wahl. Also for the many kind expressions of sympathy and for the numerous floral offerings.

WILL AID DEVELOPMENT OF NORTHERN CALIFORNIA

Supervisor William H. Brown earned a compliment for himself as well as for San Mateo County and the San Mateo County Development Association by being appointed a member of a committee of fifteen, which is to prepare a plan to amalgamate all the promotion associations of Northern and Central California and report at Marysville next February.

Supervisor Brown received his appointment at the hands of President Charles H. Dunda of the recent Marysville convention. The importance of the appointment can only be realized when it is considered that a representative from San Mateo County is the only representative on that committee from Alameda to the Tehachapi on the south. The Supervisor was a delegate from the County and the Association. There were more than two hundred delegates present for the purpose of boosting this end of the State.

Supervisor Brown's report on the work of the convention, the battle, for reduced railroad rates, street car service to the Third and Townsend issues discussed and considered at an exceedingly busy meeting of the Board of Governors of the San Mateo County Development Association last Tuesday night.

The development association is preparing for a big fight to acquire lower railroad fares. This task which appears to be of an ordinary nature on the surface, is as a matter of fact, complicated in the extreme. At this time it is suffice to say that the railroads and transportation committee has its hands full. The committeemen are working overtime.

An investigation made by the Association as to the new reduced phone rates, as scheduled by the State Railroad Commission to take effect in February, reveals the fact that San Mateo, Hillsborough and Burlingame are not benefited at present. It is probable that reductions will follow shortly so that the new rates will be thoroughly consistent.

Residents of Half Moon Bay, Redwood City and Menlo Park who now pay twenty-five cents for a three-minute conversation to San Francisco, under the new rates will pay fifteen cents for a two-minute conversation.

Auto Hits Ranch Hand.

The radiator of an automobile could hardly be touted as a first-class stretcher on which to convey an injured person to the hospital, but when Mrs. William H. Taylor, of the San Francisco and Menlo Park society matron, struck an unidentified man here Monday night, this is the way she took him to a doctor.

Mrs. Taylor, alone in her touring car, was hurrying to her country home at Menlo Park when, in passing the Del Monte hotel, her automobile struck a man who was crossing the street. The victim was scooped up neatly and deposited on top of the radiator, where he remained until Mrs. Taylor speeded with him to the local hospital.

There the man's cuts and bruises were attended to. He complained of a wrenched back and internal pains, and in order that he might have the proper medical treatment, he was taken on Mrs. Taylor's orders to a hotel. Dr. J. L. Ross called at the hotel the following morning to see the patient when, much to his surprise, he learned that the man had fled over night.

All that is known of the mysterious victim is from the statement that he had been employed by a liverrman named Hansen of Palo Alto.

More Big Bills Next Week.

Following his policy of providing the best show possible for the money, Manager Nathorst of the Bell Theater has made arrangements for some extra good programs for next week, all at the usual popular prices. An especially strong feature is on the program for Sunday evening in "High Treason," a two reel Kleins-Cines. Made in Rome on the day Italy declared war on Turkey. All the excitement of a population mad with war fever is shown in actual streets and with actual people. The war scenes themselves were taken, many of them, on the field during the Balkan War. Unique realism. There will be a special feature on every program, and the regular 5 and 10 cent prices.

SERRA DAY OBSERVED AT THE GRAMMAR SCHOOL.

On Monday morning in the grammar school assembly hall, Miss Walker gave a very able talk on the life of Father Junipero Serra to the grammar grades. She reviewed the life of the great Father-President of the Franciscans and founder of the missions of California, from his boyhood to his death, dwelling on the salient points of his character.

As Miss Walker has personally visited and studied all the missions founded by Father Serra, she is unusually well qualified to speak of his work. The children listened in rapt attention to her address.

Miss Walker has a gift of language, and is an authoress, having written the first California state textbook on grammar, and also having compiled a number of Hawaiian fairy tales and legends during her residence in the Hawaiian Islands.

In the primary grades the teachers gave commemorative talks to their respective classes.

The march of the day, and appropriate to the occasion, was "March Religioso" by Sullivan.

Frank Rosa of the 7th grade has presented the grammar school with a small branch of the tree under which Father Junipero Serra celebrated his first mass at Monterey. The tree has since been cut down and made into relics.

AFTER COUGHING TWO YEARS

Waycross, Ga., Woman Found Relief in Vinol.

Did you ever cough for a week? Then just think how distressing it must be to have a cough hang on for two years.

Mrs. D. A. McGehee, Waycross, Ga., says: "I had a very heavy cold which settled into a chronic cough which kept me awake nights for fully two years, and felt tired all the time. The effect of taking your cod liver and iron remedy, Vinol, is that my cough is gone. I can now get a good night's rest and I feel much stronger in every way. I am 74 years old."

It is the combined action of the medicinal elements of the cod's liver oil aided by the blood-making and strength-creating properties of tonic iron which makes Vinol so efficient for chronic coughs, colds and bronchitis—at the same time building up the weakened, run-down system.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

P. S.—If you have any skin trouble try Saxo Salve. We guarantee it.
